

# CHARMING INNS

August 2019

Bob and his crew were such a pleasure to work with at all 5 of our properties. Bob is professional and very aware that his presence while working on property should be unobtrusive to the staff and guests. Many business operators know that bringing in contractors can be a headache to the day to day operation. We never really knew when he was working until we saw the beautifully restored finished product. Bob brought life back to our antique and reproduction pieces. He aims to please and takes great pride in his work and attention to detail.

Sincerely,

Michelle Woodhull

President
