

## Columbia Gorge Hotel & Spa

*A Legacy of Romance and Charm*

August 20, 2018

The historic registered Columbia Gorge Hotel & Spa in Hood River, Oregon, has been overdue for a cosmetic update which includes rejuvenating the walls, ceilings of the public places and restoring the feel and atmosphere of a residential mansion from the 1920's, when it was built by Simon Benson.

The details of such an undertaking are to say the least rather challenging especially when it comes to antique furniture throughout the hotel. Our 40 rooms have indeed around 30 different beds and styles with matching bedroom pieces, most in solid carved wood.

Reviving the splendor of such unique treasures is best left to the professionals and Bob Stephens and Northern Lights Restoration. Bob and his team did a phenomenal job, not only on the furniture, but to do this in a timely manner, in high season, with a minimal disturbance to our guests is worth the praise and recommendation of a job more than well done!

As we progress with our project of renovation and restoration, Bob will definitely be called back to continue the task; no other would come to mind.

We thank Bob and his team for the precise dedication and finesse of his accomplishment and will recommend him for any serious restoration and antique rejuvenation work.

Thank you, Bob. With my compliments to you and your Team.

Eddy Vanreterghem, General Manager
