Jekyll Island Club Hotel  
*"A Landmark Experience"*

September 1, 2017

To Whom It May Concern,

I am writing to recommend the services of Northern Lights Restoration, Inc. The Jekyll Island Club Resort is a 157 room resort. Mr. Stephens and his team were responsible for restoring furniture in all 157 rooms, the Grand Dining Room, plus many pieces in the common areas. With their knowledge and attention to detail I feel confident in recommending their services. They have been flexible and accommodating with fluctuating business levels, while maintaining their attention to detail with each piece of furniture. Should you have any further questions, please feel free to contact me.

Regards,

Milton Husted  
Director of Rooms
